DETAILED ACTION

Election/Restrictions

1. Restriction is required under *35 U.S.C. 121 and 372*.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-16 drawn to an information transmission system of self-controlling type robots, which belongs to **class 700 subclass 245**

Group II claim(s) 17-25, drawn to an on-line sales system, which belongs to **class 705 subclass 1**.

2. The inventions listed as Groups I-II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

As described above “an information transmission system of self-controlling type robots”, “an on-line sales system” and “a commercial transaction method in which a product distributor that sells a product makes a contract” lack the same technical features.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

3. A telephone call was made to Mr. William S. Frommer Reg., 25,506 on Friday, March 21, 2003 to request an oral election to the above restriction requirement, however Mr. William S. Frommer was not available.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
